

## RMB Corporate Handbook

*published on 22.09.2014*

### Description

China is now the second largest economy in the world and has seen its trade clout growing at an average rate of 22% per annum for the last 10 years.

The use of RMB has gone from virtually zero to more than 13% of the overall exchanges in the past two years. We expect China trade to double by 2020 and the usage of RMB to continue booming until it becomes one of the 3 major currencies used globally.

Below the questions answered in the Handbook:

- International trade in RMB. How does it work?
- How to: FDI in China?
- How to raise RMB funding onshore / offshore?
- How to repatriate cash from China?
- How can I hedge in RMB?
- How can I manage my RMB Cash?

### Asia, a far from harmonious payments market

[Paying Here & Abroad 01/09/2014](#)

Looking east, an international sales director might picture the land of milk and honey, while a treasury executive will see a promising, yet complex patchwork. While the two will marvel at growth drawing near, the cash expert will soon endure the strains of a heterogeneous market. This article explores the multiple challenges of payments in Asia.
