

Payments

published on 22.01.2015

From international payments to payment factories, the world of payments is wide and probably a little bit wilder than we like it to be. Yet, at BNP Paribas, we can support all types of payments everywhere on the globe with adapted and innovative responses that make them swifter, easier and safer.

Description

International payments bring specific challenges.

A global economy implies international flows, and these are on the uptrend. Post-SEPA, European corporations are looking ahead and are ready to address the challenges of international payments. But while SEPA harmonises the payment landscape within Europe, it remains largely heterogeneous outside.

How can your company optimise its international payment flows?

Message in a bottle? Maximising success in critical international payments

[Paying Here & Abroad 01/09/2014](#)

There are many anecdotal stories about bottles containing long-lost messages and valuable treasures washing up on coastlines around the world years after they were sent. Presumably, the person who dropped the bottle in the first place had no expectations that it would, if ever reach a particular destination. So, are treasurers paying any more attention when making their business-critical, time-sensitive international payments?
