

## Cash Management University 2016 - Lightning Talks

*published on 31.05.2016*

Helen Sanders, the Editor of Treasury Management International, in a special issue on Innovations in Cash Management writes about the series of 'lightning talks' held for the first time at the Cash Management University in 2016. 'Lightning talks' are short presentations aimed at giving cash and treasury professionals a concise and targeted view of some of the new initiatives are underway in the cash management space. In addition, participants discuss how these initiatives could add value to their own businesses.

The following topics were discussed in these talks:

- The birth of Blockchain
- Virtual cards
- Instant payments
- Big data
- A connected approach to mobile banking
- SWIFTgpi
