

## Digitally Augmented Treasury

*published on 01.03.2017 by Steven Lenaerts*

This article describes the game-changing potential of mobile technology, instant payments and electronic bank account management in corporate treasuries.

Steven Lenaerts, Head of Product Management - Global Channels, BNP Paribas Cash Management and Olivier Praneuf, Head of Cash and Trade Solutions, BGL BNP Paribas Corporate and Public Banking write in the 'Treasurer' magazine of the Luxembourg Association of Corporate Treasurers (ATEL) about how the ever increasing digitalisation and the introduction of new technologies is changing ? and in some cases transforming ? the ways corporates operate.
