

## **Journeys to Treasury 2017- Resilience, Adaptability and Innovation**

*published on 27.10.2017 by Jan Dirk van Beusekom*

Jan Dirk van Beusekom writes about the Journeys To Treasury report in Treasury Management International

BNP Paribas, SAP, PwC and the EACT unveiled the new edition of the Journeys to Treasury report at this year's EuroFinance Conference. Following in the footsteps of the 2016 edition, the second edition of Journeys To Treasury has quickly established itself as an authoritative and industry-shaping report on the future of treasury.

In this detailed TMI article, Jan Dirk van Beusekom, Executive Director at BNP Paribas Cash Management, gives an in-depth review of the report and discusses the three topics of this year's report.

#### **Data analytics: give meaning to your big data**

Trends & Vision 30/10/2017

?Big data? is not yet high on many treasurers' agenda, but every organisation acquires a huge volume of data available on a continuous basis, both directly and through third party partners, such as banks, technology vendors and consultancies.

#### **Regulation, compliance and geopolitics...**

Trends & Vision 06/11/2017

... how to stay ahead of the game.

The regulatory environment continues to change, and given their international role, treasurers need to understand and comply with diverse regulation. Not only is the regulatory burden increasing, but the financial and reputational consequences of non-compliance continue to grow.

# Cybersecurity: augmented risk in a digital world

Trends & Vision 13/11/2017

Securing company financial and information assets is a responsibility for every business function, but this responsibility is particularly acute in treasury given the size of transactions and sensitivity of data. Furthermore, the financial ? as well as reputational ? implications of fraud are very real.
