Although the information in this document has been obtained from sources which BNP PARIBAS believes reliable, we do not represent or warrant its accuracy, and such information may be incomplete or condensed. This document does not constitute a prospectus or solicitation.

All estimates and opinions included in this document constitute our judgement as of the date of the document and may be subject to change without notice. Changes to assumptions may have a material impact on any recommendations made herein.

The elements of information provided hereafter represent detailed requirements for optimising international payment processing with BNP Paribas. For transactions where the mandatory data is not correctly filled in or is missing, processing will be carried out on a 'Best Effort' basis. This means that in the case of an overrun of the cut off due to manual processing, BNP Paribas cannot be held responsible for any claims made by the beneficiary's bank. In certain BNP Paribas branches, not all the currencies mentioned are available for making payments and some currencies may have additional requirements. Please contact your Account Manager for more details.

Bangladeshi taka (BDT) from France to Bangladesh

Overview

The payment processing of this currency is considered to be complex (multiple information to be provided and complex processing).

The beneficiary might be required to complete local documents to release the funds ("Form C").

If the beneficiary is a non-profit organization, pre-approval by the local NGO office is required in order to receive the funds.

Be aware payments related to certain types of income (such as export services, revenue from IT/software solutions, etc.) will involve a 10% income tax deduction at source. The tax will be settled directly by the receiving bank with the tax authority on behalf of the beneficiary.

IMPORTANT: Be aware that the Brazil Foreign Exchange Regulation is requesting from each beneficiary a onetime

registration set-up to receive cross-border payments in local currency. If a beneficiary has not been registered yet, the payment will not be rejected, but the credit to the beneficiary is likely to be delayed. Based on the contact details provided in the remittance information of the payment, BNPP’s local providers will contact & work with the beneficiary in Brazil to register him. Only once registration is complete, the FX and credit to their account can be executed. It's highly recommended that the remitter does reach out to his beneficiary to inform him that the payment has been initiated and that BNPP's local currency provider is going to contact him to complete the registration if it hasn't been done yet.

In addition, bear also in mind that every single payment done in local currency to Brazil needs to be supported by a document proving the purpose of the payment. This document will be asked by BNPP's local currency provider to the beneficiary. In order to comply legally, all supporting documents must reflect BRL amount and must match the amount in the payment instruction. Otherwise, transaction will be cancelled. This emphasizes again the importance to provide the complete beneficiary contact details within the remittance information.

Last but not least, when making local currency payments to entities domiciled in Brazil, it is expected that all beneficiaries are aware of documentation requirements both at registration and at FX / payment execution.

Belarusian ruble (BYN) from France to Belarus

Overview

Payments in **BYN** currency are currently suspended.

BYN is considered to be a restricted currency, which implies an inherent limitation to the tradability of this currency. Fund transfers in this currency are allowed towards **Belarus** but not allowed towards other countries.

The payment processing of this currency is considered to be complex (multiple information to be provided and complex processing).

In some cases, the final beneficiaries will have to contact their local branch to release the funds, or might be required to sign documents to authorise the release of funds

Canadian dollar (CAD) from France to Canada

Overview

The payment processing of this currency is considered to be highly standardized.

New regulation: as of June 2021, all Canadian banks should take reasonable measures to ensure the identification of the final beneficiary. As a consequence, all payments in all currencies towards Canada as well as all CAD payments (when the payment is handled by a Canadian bank, so irrespective of the destination country) now require the beneficiary address. The reasonable measures will vary from a Canadian bank to another, depending on their size, risk appetite and other variables which can result in a normal payment processing to a strict rejection.

A summary of the rules with examples of compliant addresses and common mistake is available in appendix (see [Appendix XXVI](#))

Chinese Yuan Renminbi (CNY) from France to China

Internal comment

The purpose of payment code should be specified in the bank to bank information field (F72) in the format below. Any additional information should be placed after in Field 72 Line 1.

Structure to follow:

:72:/PAYT/DDDDD

ANY ADDITIONAL INFO.

Overview

The payment processing of this currency is considered to be complex (multiple information to be provided and complex processing).

Payments in CNY toward mainland China are processed through the Chinese cross-border clearing system, called CIPS (Cross-border Interbank Payment System), which uses specific codes and information. Cross-border payments in CNY towards mainland China are only authorised for capital, commercial and similar transactions. Besides, cross-border payments in CNY from corporates outside China to individuals located in mainland China are possible, using one of the following purpose codes: /PAYT/02112, /PAYT/02114 or /PAYT/02125. In addition, self-transfer (with the same name) cross-border payments in CNY initiated by individual to own individual account located in mainland China are possible with the daily limit CNY80.000.

In order to avoid any payment delay or rejection when providing the full beneficiary address, please make sure to split the full beneficiary name and the full beneficiary address. There are two options possible for MT format only:

- Field 59, Option F (59F) : use the structured format provided by option F.
- Field 59, No Option (59) : please add "ADD" just in front of the address.

Be aware that regulations change frequently: please contact your accountmanager for the latest status or any specific request.

There are two types of Yuan existing in China : CNY and CNH.

- CNY is the onshore Yuan which is only held/traded in mainland of China.
- CNH is the offshore Yuan which is traded outside of mainland China

The ISO currency code to be used will still be CNY for payments even if instructed offshore, despite the currency itself being held/transacted offshore. Payments instructed in CNH will not be accepted.

Colombian peso (COP) from France to Colombia

Overview

COP is considered to be a restricted currency, which implies an inherent limitation to the tradability of this currency. Fund transfers in this currency are allowed towards **Colombia** but not allowed towards other countries.

The payment processing of this currency is considered to be complex (multiple information to be provided and complex processing).

For payments below 10.000 USD equivalent, the final beneficiaries will be contacted to release the funds by filling an appropriate form onshore. While for payments above 10.000 USD equivalent, the beneficiary bank requires supporting documents to be filled out and presented on the day the transaction is closed for the funds to be credited. This emphasises the importance of adding the beneficiary's contact details in the payment instructions. In addition, in order to make sure that the relevant documents are at the disposal of the beneficiary bank in due time and that the credit value date can be respected, it helps if the beneficiary proactively reaches out to their bank to expedite the procedure.

Egyptian pound (EGP) from France to Egypt

Overview

The payment processing of this currency is considered to be complex (multiple information to be provided and complex processing).

Due to a new legal opinion on local regulation which implies it is no longer possible for offshore banks to trade EGP currency, it consequently brings some limitations to our EGP offer:

- Incoming EGP payments to be converted and credited to accounts denominated in other currencies will be rejected
- Outgoing payments requiring FX int EGP: no change
- Incomin and outgoing EGP payment without a FX will also be rejected.

European euro (EUR) from France to Kosovo

Overview

The payment processing of this currency is considered to be standardized.

Today, all transactions in EUR between 2 countries with EUR as domestic currency must respect the SEPA regulation (Austria, Belgium, Cyprus, Estonia, Finland, France, Germany, Greece, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Portugal, Slovenia, Slovakia, Spain and The Netherlands). As from November 2016, all transactions in EUR between 2 countries within the SEPA Area (see [Appendix VII](#)) must also respect the SEPA regulation. Payment transactions processed and settled through large-value payment systems, regardless of the amount, remain out of scope of the SEPA regulation.

Public holidays in Kosovo (*)

Honduran lempira (HNL) from France to Honduras

Overview

HNL is considered to be a restricted currency, which implies an inherent limitation to the tradability of this currency. Fund transfers in this currency are allowed towards **Honduras** but not allowed towards other countries.

The payment processing of this currency is considered to be complex (multiple information to be provided and complex processing).

In addition, a series of limitation applies:

- Individual to individual payments are not supported
- Payments from corporations to individuals must be pre-cleared before processing. Please contact your account manager for further informations.
- Capital injection payments are not supported

Trading and settlements in HNL are temporarily working on a half day basis due to the outbreak of covid-19. Due to the shortened operating hours, delivery timelines of payments and investigations may be delayed.

Indonesian rupiah (IDR) from France to Indonesia

Internal comment

It's mandatory to mention the SKN Number in tag 72

Beneficiary Type Code Value = 1 / 2 / 3 (1: Individual, 2: Corporate, 3: Government)

Beneficiary Status Code Value = 1 / 2 (1: Resident, 2: Non-Resident)

Example: 72:/ACC/BENEFRES/ID/SKN/21

Overview

IDR is considered to be a restricted currency, which implies an inherent limitation to the tradability of this currency. Fund transfers in this currency are allowed towards **Indonesia** and we do not recommend sending **IDR** towards other countries.

The payment processing of this currency is considered to be complex (multiple information to be provided and complex processing).

This currency has no decimal. In case you instruct a payment in this currency with decimals, it can be either rejected or rounded.

NGOs and individuals receiving charity/donation payments must open a specific account number called a FCRA account. For payments those payments, it is mandatory to instruct New Delhi’s Central Bank branch as the beneficiary bank. Payment will be rejected if the IFSC code or BIC code is not the one of New Delhi’s Central Bank branch.

Additional documentation might be requested for certain type of payments. This additional documentation is called “FIRC” or “e-FIRC” for its electronic equivalent. These documents can only be provided by Indian banks.

- In Japan, transfer fees for foreign transactions (without change) may be higher than in other countries because they are based on a percentage called "fee collection".
- Relevant for funds receipt in Japan. Please note that, according to the Bankers Association: "The Japanese government has required Japanese financial institutions, etc. to identify and verify customers under the Act on prevention of transfer of criminal proceeds and the foreign exchange and foreign trade act, as part of

countermeasures against money laundering activities and the financing of terrorism. Under these circumstances, banks will identify and verify customers when they open a new account and/or perform large cash transactions, domestic cash transfers of more than 100,000 yen and overseas remittances, etc. Banks are also required to report transactions that are suspected of being related to criminal proceeds by the Act. For more information please go to the website”.

- Central bank of South Korea: <http://eng.bok.or.kr/eng/engMain.action>

Transactions above 20,000.00 USD equivalent can only be executed if the purpose for KRW payment falls under one of the following two categories:

- Paying for Current Trades*
- Reinsurance Claim

Relevant supporting documentation should be submitted in order to verify its true purpose. The requested documentation is in most cases provided by the beneficiary, emphasizing the need to provide beneficiary contact details in the remittance information (field 70). It is possible that the remitting bank will also be contacted for documentation. In addition, transactions above 20,000.00 USD equivalent for personal purposes, or so called 'Capital Trade', cannot be executed.

*'Current Trades' category includes the following - trade related transactions, salary, student payments and tax payment. Below, some examples of acceptable documents for each purpose of payment:

- Trade Related Payment: Invoices (PI/CI), Contract, etc
- Salary: Salary Statement, etc.
- Student Payment: University/School Fee Details, Tuition Statement, etc.
- Tax: Tax Bill
- Others: To be determined

Capital Trade category includes the following : Living expenses, donations, gifts, rent.

According to Korean local law, payments for Foreign Direct Investment (FDI), Capital, Mergers and Acquisitions (M&A), Share dividend, Loan or Investment are not allowed to be executed in KRW. For such payment, please initiate your payment in another currency than KRW, irrespective of the beneficiary account currency. The bank is not responsible for any conversion in KRW at beneficiary bank side.

Pakistani rupee (PKR) from France to Pakistan

Overview

PKR is considered to be a restricted currency, which implies an inherent limitation to the tradability of this currency. Fund transfers in this currency are allowed towards **Pakistan** but not allowed towards other countries.

The payment processing of this currency is considered to be complex (multiple information to be provided and complex processing).

Besides the inherent complexity of payment formatting, the beneficiaries might be contacted by the beneficiary/correspondent bank and requested to complete a document (e.g. Form R) to release the funds.

Per local regulations we are unable to support donation and charity payments to individual beneficiary accounts

Paraguayan guarani (PYG) from France to Paraguay

Overview

PYG is considered to be a restricted currency, which implies an inherent limitation to the tradability of this currency. Fund transfers in this currency are allowed towards **Paraguay** but not allowed towards other countries.

The payment processing of this currency is considered to be complex (multiple information to be provided and complex processing).

This currency has no decimal. In case you instruct a payment in this currency with decimals, it can be either rejected or rounded.

The beneficiaries might be contacted by the beneficiary/correspondent bank to release the funds.

Russian ruble (RUB) from France to Russia

Overview

Due to current geopolitical context, BNP Paribas will not accept RUB payment nor will convert incoming RUB to another currency.

The payment processing of this currency is considered to be complex (multiple information to be provided and complex processing).

In Russia, the clearing code is a local clearing code which is also called "BIC". However, this is not the same as the BIC SWIFT. Therefore, to make a distinction, we name it "BIK".

For tax payments: the Federal Tax Service of Russia is switching to new treasury accounts. Until May 2021, both old and new accounts are acceptable but using the old account number after April 30, 2021 will lead to payment rejection. In addition, the information provided below for tax payments is the standard mandatory information and provided by the Russian Tax Administration. Depending the type of tax to be paid, the requested information from the Russian Tax Administration might slightly differ. In that case, please follow the guidelines provided by the Russian Tax Administration.

The RUB is a very sensitive currency due to the complexity of the Russian payment system. We advise to strictly follow the guidelines in order to avoid payment rejection and to validate with your beneficiary every mandatory information.

In case you are not able to instruct the information below in the correct fields, please use the remittance field.

Swazi lilangeni (SZL) from France to Swaziland

Overview

SZL is considered to be a restricted currency, which implies an inherent limitation to the tradability of this currency. Fund transfers in this currency are allowed towards **Swaziland** but not allowed towards other countries.

The payment processing of this currency is considered to be complex (multiple information to be provided and complex processing).

Due to political unrest, a curfew has been imposed and onshore banks have decided to shut indefinitely until the unrest subsides. As a consequence, payments towards/from Swaziland could face delays.

Thai baht (THB) from France to Thailand

Overview

The payment processing of this currency is considered to be relatively standardized.

Transfers equal to or greater than THB 5 million require supporting documentation indicating the purpose and exact amount of each payment. Supporting documentation includes a copy of the invoice or payroll request, or a letter on signed letterhead describing reason for transfer. The supporting documentation will be requested to the beneficiary before releasing the funds.

New Taiwan dollar (TWD) from France to Taiwan

Overview

TWD is considered to be a restricted currency, which implies an inherent limitation to the tradability of this currency. Fund transfers in this currency are allowed towards **Taiwan** but not allowed towards other countries.

The payment processing of this currency is considered to be complex (multiple information to be provided and complex processing).

This currency has no decimal. In case you instruct a payment in this currency with decimals, it can be either rejected or rounded.

For all payments towards Taiwan, the final beneficiary will be contacted by his bank to submit the Inward Remittance declaration and supporting documentation indicating the purpose of the remittance. If the amount of the transaction exceeds TWD 500.000 or equivalent, the beneficiary will also be asked to complete an additional FX declaration form in order to authorise the release of funds. This emphasises the importance of adding the beneficiary's telephone numbers/contact details in the remittance information.

TWD payments to beneficiaries holding accounts with Chunghwa Post are now supported.

- According to the central bank: “Since July 1987, the CBC has actively deregulated the foreign exchange controls on capital movements. Currently, capital movements are completely liberalised.
 1. Cash flows not involving the conversion of New Taiwan dollars are completely liberalised.
 2. Cash flows involving the conversion of New Taiwan dollars:
 - A. Inward and outward remittances related to foreign trades in goods are completely liberalised.
 - B. Inward and outward remittances related to services are completely liberalised.
 - C. Direct investments and portfolio investments approved by the competent authorities are also completely liberalised.
 - D. Other regulations:
 - Total annual remittance not exceeding USD 5 million by a natural person, and total annual remittance not exceeding USD 50 million by a juridical person may proceed directly through authorised banks. Total remittance exceeding the said amounts requires CBC’ prior approval.
 - A single remittance not exceeding USD 100,000 by a non-resident may proceed directly through authorised banks. Otherwise CBC’ prior approval is required.
 3. In short, there are effectively no foreign exchange restrictions in Taiwan now.”

Weekend in British Virgin Islands (*)

- Saturday - Sunday

Additional information

- Available charge option: OUR/SHA/BEN
- Central bank of the United States of America:
http://www.federalreserve.gov/faqs/about_12594.htm

Please be advised that in some cases the OUR fee option doesn't work as expected. We remind you that a payment processed with an OUR fee option is a payment where the full amount is supposed to be credited to the beneficiary without deductions. Usually the OUR option is preserved throughout the payment chain and the full amount reaches the beneficiary. However, the US intermediary of the beneficiary banks may convert the OUR charge code to 'SHA' (shared cost system): as a result, fees may be deducted from the principal amount, which means the beneficiary will not receive the original instructed amount.

In case the beneficiary is inside of USA, OUR charge code will not be maintained as the local clearing does not allow OUR, so potentially the principal amount will be impacted.

Vietnamese dong (VND) from France to Vietnam

Overview

VND is considered to be a restricted currency, which implies an inherent limitation to the tradability of this currency. Fund transfers in this currency are allowed towards **Vietnam** and we do not recommend sending **VND** towards other countries.

This currency has no decimal. In case you instruct a payment in this currency with decimals, it can be either rejected or rounded.

Payments cannot be made to Foreign Indirect Investment Accounts (FIAs). In some cases, the beneficiaries might be required to sign documents to authorize the release of fund.

In addition, in Vietnam, the name order is the following: surname (1), middle name (2) and first name (3). Please make sure to follow this structure when instructing the beneficiary name to avoid payment delay/rejection.

Besides, instructions with Mr/Mrs/Ms in the beneficiary name should be removed in order to avoid payment delay.

Glossary

Share - are securities that represent a portion of the share capital of a public limited company. This means that by buying a share, the investor becomes part owner of the company, having the right to a share (however small) of the assets and earnings that the company will have.

Repurchase Agreement - Repurchase or repurchase agreements, a term derived from the Anglo-Saxon term "repurchase agreements", are a form of financing in which the debtor - usually a financial institution - lends securities from its portfolio - e.g. government securities - as consideration for a loan and simultaneously undertakes to repurchase them on a pre-established date. The difference between the sale and repurchase prices is the interest paid by the debtor.

Assets - are asset values, representing credits, rights or goods held by an economic agent.

Amortization (or Repayment): Payment of an outstanding principal. Amortisation may be total, if the entire outstanding principal is repaid, or partial, if only part of the outstanding principal is paid.

Balance of Payments - is the systematic recording of all economic transactions carried out between the residents of a given economy and the residents of the rest of the world during a certain period.

Treasury Bills: Short-term government debt securities issued at a discount. **Stock Exchange:** Physical or virtual place where securities and derivative financial instruments are traded (bought and sold).

Share Capital - Initial investment by the partners of a company, represented in the form of shares, (if it is a public limited company) or (if it is a private limited company).

Portfolio: a set of contractual positions, both active and passive, assumed through the acquisition or sale of financial products.

Certificates of Deposit: Certificates of Deposit are documents proving a deposit made with the issuing Bank.

Commission - Amount payable for the provision of an intermediation service. **Nostro" account** - a foreign currency account of a resident Bank, with its correspondent abroad.

Vostro" Account - Foreign correspondent account in foreign currency with a resident Bank.

Debentures - are certificates or securities issued by corporations, representing loans contracted by them, each security giving the debenture holder, identical credit rights against the corporations, established in the deed of issue. It consists of an instrument to raise funds in the capital market, which companies use to finance their projects.

Derivatives - Generic denomination for operations that have as reference any asset, called "base asset" or "underlying asset" (which is usually traded in the spot market). Derivatives usually have an expiry date. Examples of derivatives are call/put options, futures and swaps.

Related Companies - two companies are said to be related when they are under the influence and control of the same direct investor.

Factoring - collection service provided by a financial institution to companies supplying goods and/or services that grant short-term commercial credits to client companies. This service may also be associated with advance payment and risk coverage services, depending on what is contracted.

Forward - A contract to buy and sell a given quantity and quality of an asset (financial or otherwise) on a specific future date, at a price fixed in the present, negotiated bilaterally (over the counter). Under a forward contract, the buyer is bound to pay the agreed price and the seller is bound to deliver the asset at the agreed conditions. However, forward contracts may be subject to physical settlement (where the seller delivers the sold commodity) or financial settlement (where there is no physical delivery of the commodity, but only a settlement of accounts in accordance with the market price of the asset on the settlement date). Unlike futures contracts, which are multilaterally negotiated (on an exchange) and are subject to a high degree of standardisation, forward contracts can be freely drawn according to the will of the parties (buyer and seller).

Franchising - is the cession to a franchisee by a holder ("franchisor") of the right to use a trademark or patent, manufacturing and administrative technologies and others, against payment.

Pension Fund - Pension funds are assets exclusively dedicated to the realisation of one or more pension plans.

Future - standardised and exchange-traded contract in which two parties fix the price of an asset for a certain

future date. Standardised, reversible contract for the purchase and sale of a given quantity and quality of an asset (financial or otherwise) on a specific future date, at a price fixed in the present. By the futures contract, the buyer is bound to pay the agreed price and the seller is bound to deliver the asset at the agreed conditions. Futures contracts may be subject to physical settlement (where the seller delivers the sold commodity) or financial settlement (where there is no physical delivery of the commodity, but only a settlement of accounts in accordance with the market price of the asset on the settlement date). Unlike forward contracts, which are negotiated offexchange on a bilateral basis and can be tailored to the will of the parties, futures contracts are fully standardised so that the price is the only variable that can be negotiated (on-exchange). Futures contracts allow either party to reverse its contractual position by making a reverse transaction (i.e. selling a contract of the same series as the one initially bought, or buying a contract of the same series as the one initially sold).

Guarantees - Set of assets deposited by the debtor (investor, financial intermediary or other) with the creditor (financial intermediary, clearing house or other) which, under certain conditions, may be mobilised by the latter to satisfy its claim.

Goodwill - corresponds, for the purposes of consolidation of a holding, to the difference between the acquisition value of that holding and the book value of the appropriate company's equity.

Indemnity - refers to compensation due to someone in order to annul or reduce a damage of a material nature, originated by total non-fulfilment, or deficient fulfilment of an obligation. It is also the name given to the amount paid by an insurer to the insured in the event of a claim.

Financial Instrument: Investment instruments including transferable securities, derivative financial instruments, money market instruments as well as any others considered as such.

Direct Investment - refers to an investment in which an investor resident in one economy makes an investment that gives control or a significant degree of influence over the management of an enterprise that is resident in another economy. Control or significant degree of influence should be understood as all investment equal to or greater than 10%.

Interest - Income paid by the issuer to the holders of debt investment products and which corresponds to the consideration for the credit granted for a given period. The amount of interest can be determined based on a variable rate (in which case the amount of interest depends on the evolution of an indexing factor) or on a fixed rate. The periodicity of payment is defined in each case, and may be annual, half-yearly, quarterly or other.

Interest in arrears - Interest produced by interest accrued in previous capitalisation periods.

Financial leasing - is the contract whereby one of the parties undertakes, for a consideration, to grant to the other the temporary enjoyment of a movable or immovable asset, acquired or built by indication of the latter and which the latter may purchase totally or partially within an agreed period of time, against payment of a price determined or determinable under the terms of the contract itself.

Capital Market - Market where financial instruments and securities that do not have the nature of short-term financial instruments are traded.

Money market - Market where financial instruments of a short-term nature are traded (i.e. typically with a maturity of less than one year). In contrast to the money market, in the capital market, financial instruments of a medium and long term nature are traded.

Bonds - Securities representing debt that entitle the holder to receive periodic interest payments during the loan's

life and to repayment of the principal on maturity.

Convertible bonds - Bonds that allow, as a form of reimbursement, their conversion into shares of the issuing company or into another type of security, within the terms and conditions defined at the time of their issue.

Option - a contract between two parties whereby the buyer acquires, through the payment of a monetary consideration (called premium), the right to buy/sell to the other party the underlying asset during a certain future period (exercise period), at the price set in the contract (called exercise price).

Foreign Exchange Transaction - any act, business or transaction carried out between foreign exchange resident and non-resident person that may result in payment over or receipt from abroad.

Liabilities - are negative asset values, representing debts, obligations, commitments or liabilities of the economic agent.

Premiums - A term used in various senses in the financial market, associated (in its most common sense) with the compensation that an agent has for taking some risk.

Reinvestment - operation whose objective is the incorporation of results (profits and dividends) in reserves or in the share capital of a company. **Resident** - Refers to economic agents whose habitual residence or centre of economic interest is in the national territory. It is understood by habitual residence, national and foreign individuals resident in the country for at least one year as well as any form of representation of legal persons in the national territory.

Reinsurance - It is a contract in which the reinsurer undertakes to indemnify the insurance company (ceding) for damages that may occur as a result of its insurance policies. Operation by which the insurer, transfers to another, totally or partially, a risk assumed through the issue of a policy or a set of them. In this operation, the insurer tries to diminish its responsibilities in the acceptance of a risk considered excessive or dangerous, and cedes to another part of the responsibility and of the premium received.

Royalties" e "Copyright - É o pagamento pelo uso de propriedade intelectual e industrial.

Direct Insurance - Refers to transactions between insurance companies and the public.

Non-Life insurance - includes accident, health, life, aviation and other means of transport insurance; fire and other damage to property insurance, pecuniary loss insurance; general liability, and credit insurance.

Broker/dealer services - this is a contract whereby one party undertakes to the other to bring interested parties together and conclude business deals, without subordination and for a fee.

Custody Services - is the safekeeping and exercise of the rights of bonds and securities, deposited on behalf of investors, ensuring their property in the Financial Institutions. There are two types of custody: Fungible Custody, according to which, when the securities are withdrawn, they may not be the same as those deposited, although they have the same quantity, quality and kind; and Non-Fungible Custody, in which the securities withdrawn are exactly the same as those deposited.

Swap - A contractual instrument for the exchange of legal and/or financial positions or financial instruments, entered into bilaterally between two economic agents. They are concluded essentially at the level of rates, but may be at the level of any financial element.

Debt Security - are negotiable instruments that serve as evidence of a debt. **Equity Certificates** - Equity certificates are securities that tend to be perpetual, entitling the holder to a remuneration with two components: a fixed and a variable one. Both the fixed and the variable remuneration are determined on a percentage of the nominal value of the equity security.

Seasonal or Frontier Worker - these are workers who move from their country of residence to another for their place of service.

Investment Fund Investment Unit - A financial instrument representing part of the equity of an investment fund. Investment units are the parts into which the equity of an investment fund is divided. The duration of the investment units should be equivalent to the duration of the fund.

Securities - Documents representing homogeneous legal situations, standardised, fungible among themselves and susceptible of being transmitted in the market.

Warrants - give the holder the right, but not the obligation, to buy or sell the underlying asset at a predetermined price within a specified period between the acquisition date and the maturity date.

Sending Payments to Canada

Key points : Since June 2021, a new Canadian law requests Canadian banks to take reasonable measures to ensure the identification of the final beneficiary. The reasonable measures will vary from a Canadian bank to another, depending on their size, risk appetite and other variables which can result in a normal payment processing or to a strict rejection. As a consequence, all payments in all currencies towards Canada as well as all CAD payments (when the payment is handled by a Canadian bank, so irrespective of the destination country) now require the beneficiary address. A full address consists of a street number, street name, city, postal code, province, country code and country name. PO Box should not be used unless it is in conjunction with the street address. In Canada, all the elements above are required to be compliant with the regulation. When sending CAD payments to another country than Canada, the elements in the address could be less restrictive (ex : no province required for France). We strongly encourage you to be as complete as possible. This document is intended to show you examples of what is considered as a full address by Canadian banks and common mistakes.

Examples of compliant addresses	
Example	Comment
XX MACDONALD AVENUE DARTMOUTH CA / NS B3B 1C6	Street name and number = MACDONALD AVENUE XX City = DARTMOUTH Country = CA Province = NS Postal code = B3B 1C6
XX BOULEVARD DU TRICENTENAIR H1B 5M8 MONTREAL QUEBEC CA	Street name and number = XX BOULEVARD DU TRICENTENAIR Postal code = H1B 5M8 City = MONTREAL Province = QUEBEC Country = CA
XX PLACE DU COMMERCE SUITE X CA H3E 1H7 VERDUN QC	Street name and number = XX PLACE DU COMMERCE SUITE X Country = CA Postal code = H3E 1H7 City = VERDUN Province = QC
XX RUE DES ARCHIVES 75004 PARIS FR	Street name and number = XX RUE DES ARCHIVES Postal code = 75004 City = PARIS Country = FR Province = /
Common mistakes	
Example	Comment
CA/	Indication of country code is not enough. Street name and number, city, postal code and province should be provided.
P.O BOX XX HAMILTON ONTARIO CA	PO BOX is not allowed and no indication of street name and number, province and postal code.
XX SLADEVIEW CRESCENT L5L 5Y5 CA/ONTARIO	No indication of valid city. There is a postal code (L5L 5Y5) and a province (Ontario) but no city. In this case the city Mississauga should have been added.
XX BOUNDARY ROAD CA V5K 4T5 BURNABY	No indication of valid province. There is a postal code (V5K 4T5) and a city (BURNABY) but no province. The province in this case would be British Columbia / BC.
XX BOULEVARD DU TRICENTENAIR H1B 5M8 MONTREAL QUEBEC	No indication of country name or country code. Canada / CA should have been added.
A common mistake is the lack of province in the address but in Canada, it is mandatory to mention it. Below you can find the list of provinces / territories in Canada. This information can be present in full letters or only the code.
